

Magellan Rx Standard Formulary

Welcome to Magellan Rx Management's Standard Formulary. A formulary is a list of covered prescription drugs. Please use this formulary drug list when you receive a prescription from your doctor. This formulary list is not intended to imply coverage and may change over time. Please refer to your plan document for detailed information about your drug benefit coverage.

The formulary is organized by categories depending on the type of medical conditions that they are used to treat. Medications are listed as Tier 1 Generic, Tier 2 preferred Brand, and Tier 3 non-preferred Brand. Medications listed as "Specialty Drugs" are used to treat complex medical conditions that require special handling, administration, and member care management. Depending on your pharmacy benefit design, specialty drugs may be part of a specialty benefit with specific coverage and copay requirements that differ from drugs in Tiers 1 – 3. If you do not have a defined specialty benefit, your copay may be based on whether the drug is Generic or Brand, therefore Tier 1 or Tier 3 copays may apply.

Our Pharmacy and Therapeutics Committee (P&T) and Value Assessment Committee (VAC) dedicate many hours to the clinical analysis and evaluation of peer reviewed literature and medical care guidelines to determine a drug's safety and efficacy. After this rigorous clinical evaluation, the committee weighs the financial implications of a drug compared to other similar drugs and selects appropriate Tier placement based on the drug's safety, efficacy and cost-effectiveness. Please note all drugs on the Formulary Drug List are subjected to periodic review and amendment without notice.

Please keep in mind when a generic medication is chosen, patients pay the lowest copay available under their pharmacy benefit plan. When clinically appropriate, please consider choosing a generic product. If a preferred brand drug from the formulary is prescribed, your copay may be less than if a non-preferred brand drug is prescribed for you.

For the most up-to-date Formulary Drug list visit our website at magellanrx.com.

TIER		DESCRIPTION
1	Generics	
2	Preferred Brands	
3	Non-Preferred Brands	
NF	Non Formulary	
TYPE		DESCRIPTION
QL	Quantity Limit	There is a limit on the amount of this drug that is covered per prescription, or within a specific time frame.
ST	Step Therapy	In some cases, you may be required to first try certain drugs to treat your medical condition before you move up a “step” to other drug options.
GL	Gender Limit	This prescription drug is restricted for a single gender.
AL	Age Limit	This prescription drug may only be covered if you meet the minimum or maximum age limit.
S	Specialty Drug	Specialty drugs are high-cost drugs used to treat complex or rare conditions. Some examples of the diseases include; multiple sclerosis, rheumatoid arthritis, hepatitis C, and hemophilia.
MED	Medical Drug	This medication is not on our drug list. Click on the THERAPEUTIC CLASS or sub class to find covered alternative medications. If you have questions, please contact member services.
PR	Preventive Medication	Preventive health drugs can help prevent, treat, and manage several health concerns that can lead to serious illness or complications in the future. The copays for these products may vary so check with your plan for further information.
HCR	Health Care Reform Products	The Affordable Care Act (ACA) requires certain preventive generic products to be covered at zero dollar copay. This does not include plans that are grandfathered.
NTI	Narrow Therapeutic Indicator	NTI products may have to be monitored by your doctor or pharmacist more frequently because small changes in doses can have harmful impacts.

PS	Preferred Specialty	Preferred Specialty.
PA	PA Applies	Your provider is required to get prior authorization before you fill your prescription, which ensures appropriate use of the selected drug. Without prior approval, we may not cover this drug.
QPD	Quantity Per Day	Quantity Per Day.
HCG	High Cost Generic	High Cost Generic.
MVB	Minimal Value Brand	Minimal Value Brand.
MVG	Minimal Value Generic	Minimal Value Generic.
NFD	Non-FDA Approved	Non-FDA Approved.
BSP	Benefit Shift Program	Benefit Shift Program.
SBA	Select Brand Alternative	Select Brand Alternative
PS1	Preferred 1st line	
PS2	Preferred 2nd line
